Trust and Cheating in Sri Lanka: The Role of Experimentally-Induced Emotions about Tsunami!

Arianna Dal Forno & Ugo Merlone (Univ. Torino):

Envy management in supervised work groups

Herbert A. Simon
International Society

International Herbert A. Simon Society

The Herbert Simon Society brings together cognitive scientists, economists, social scientists and philosophers aiming to renew the fundamental concepts of rationality and social action. Starting from the seminal work of Herbert Simon in economics, psychology, computer science, organizational theory, philosophy of science, the HSS wishes to tackle the current debate about the crisis of economic rationality, the alternative architectures of mind, the mind-brain relations and the simulation of creativity.
